LIST OF HERB PLANTS

The Devonshire Nursery offers an exceptionally wide variety of culinary and medicinal herb plants, mailed postpaid to any address in the United States. We ship only vigorous, well-rooted plants packaged in paper pots. We suggest that on arrival these plants be transplanted immediately, either outdoors or into larger clay pots if used indoors. Perennials unless otherwise noted.

2 1/4" Pots \_\_\_\_\_ 6 \_\_\_\_\_ for \$2.90  
3" " \_\_\_\_\_ 6 \_\_\_\_\_ for \$3.25  
Gallon containers \_\_\_\_\_ each.  
(Please include sales tax if in California)

## ADDITIONS TO HERB LIST

The following herb plants have been added to the general list in response to requests from herbalists and landscapers.

- |                          |                 |     |  |
|--------------------------|-----------------|-----|--|
| <input type="checkbox"/> | BURNET          | - - | Salad burnet. Bushy attractive plant with lacy leaves. Low growing. Salads and as an astringent.   |
| <input type="checkbox"/> | CHERVIL         | - - | Resembles parsley. Used in chopped salads, egg dishes and general fine cookery. Part shade, good soil.   |
| <input type="checkbox"/> | HYSSOP          | - - | An aromatic small shrub invaluable for low hedges and for informal ground covers. Flower spikes used in arrangements. Medicinal use. Full sun or part shade.             |
| <input type="checkbox"/> | CLARY SAGE      | - - | A biennial. Striking gray green leaves and spikes of rosy blue or white flowers make it fine for backs of borders. Four feet. Used medicinally and for blending perfume. |
| <input type="checkbox"/> | WORMWOOD        | - - | A low growing shrubby plant whose deeply cut greyish leaves are attractive in back of flower borders. Used in flavoring wines and for medicinal purposes.                |
| <input type="checkbox"/> | GOOD KING HENRY | - - | A good pot herb. Arrow shaped leaves. Cooked like spinach and supposed to be a tonic. A perennial.   |
| <input type="checkbox"/> | CHENOPODIUM     | - - | Also a good pot herb. Beautifully reddish tinted foliage. An annual but self sows prolifically.  |
